

*Permission slip below is due on/by Feb. 9th

Dear Parents,

Welcome to the fun of spring after school STREAM Academy sessions. It's time to register your child for a fun way to design, build, grow, and learn!

There will be eight afterschool sessions that will take place from the last week in Feb. and run through the end of April. Robotics will take place on Tuesdays while other sessions will take place on Wednesdays. Parents will be notified if a teacher needs to change a particular date or cancel a class due to absence or illness. Students will be able to showcase their STREAM projects & creations at our school during the last STREAM class. Families will be invited to attend & detailed info will follow.

Students will be allowed to sign up for any academy based on their grade level but please know that space is limited so register today. Although we will do our best to accommodate all students, **registration is on a first come, first served basis**. Preferential registration will be given to any student who was not able to participate in the fall due to full classes. There is a \$25 fee for each child. Your FACTS account will not be charged until the first session. You will be notified if the academy your child signed up for is full.

The following list contains upcoming sessions and a list of academy descriptions follows this sheet. Please note that these are all new challenges & designs from our last session.

Teacher	Academy	Grade(s) eligible
Ms. Stainsby Mrs. Wojtaszek	*Sprouts	PreK 4 K
Mrs. Puma	LEGO U II	1 st 2 nd
Mrs. Ficorilli Mrs. Giannantonio	*Minute to Win It Class & Lab	1 st 2 nd 3 rd
Mrs. Augustine	Ken & Barbie Project Runway	4 th 5 th
Mrs. Sykes	Kitchen Chemistry	5 th 6 th 7 th
Mr. Johnson	Robotics & Scrimmage	6 th 7 th 8 th

*These STREAM sessions will incorporate 2 mini courses within the 8 weeks. Each student will benefit by receiving both courses in one. This will help expose them to more science topics so that they may be able to make their own STREAM academy choices as they grow.

Due to the nature of these activities and length of classes, excellent focus & behavior are expected from our students. Any student not cooperating, following teacher directions, or misbehaving may be dismissed from completing these sessions without a refund. Our teachers work hard to make this a wonderful and memorable experience for all. If you have any questions or need additional information, please feel free to contact me. We look forward to many fun filled activities.

Sincerely,

Maria Augustine

STREAM Coordinator - Room 109

SPROUTS: This intro to the world of inquiry science gives students the building blocks to learn how to observe their world, ask questions, and solve problems. Students will explore the animal food chain & participate in tasty science experiments.

LEGO U II: Let your imagination run wild while designing and building with a purpose. This STREAM academy provides an engaging, playful learning experience for our youngest learners. Students work cooperatively to design, build, & test engineering principles while having buckets of FUN!

Minute to Win It Class & Lab: Students will use physics to design and design interactive activities. These activities will focus on improving problem solving, concentration, & creativity.

Ken & Barbie Project Runway: A creative & fun learning experience where students will study, design & make school uniforms for Ken & Barbie to model on the runway.

Kitchen Chemistry- An introduction to food preparation designed to reinforce & teach subjects like science, math, & reading. Provides a fun, hands-on-way to introducing life skills such as budgeting, problem-solving and more!

Robotics: The Robotics Design Course offers students an exciting platform for learning about areas rich with career opportunities spanning science, technology, engineering and math (STEM). This course encourages teamwork, leadership, and problem solving among student design teams.

Student Permission Slip- Due on or before Friday, Feb. 9th

STREAM Teacher's Name _____

Name of STREAM Academy _____

For your convenience and student safety, teachers will walk their students out of the building.
All students will exit through the door near Mrs. P.'s office. Parents are asked to pick up their child/children promptly at 3:30. Sprouts will dismiss at 3:20. Students that are not picked up on time will be sent to our after school program and parents may be subject to any fees. Please notify your child's STREAM teacher if someone other than yourself will be picking up your child. Please complete this slip for each child that you are registering.
